

**British Society for
Rheumatology**

Rheumatoid Arthritis Register

Switching a cohort

Before requesting a cohort switch please check the following:

- Patient has a diagnosis of Rheumatoid Arthritis
- Started an eligible drug within the last 24 months (Drug eligibility can be checked on our website)
- Drug start date is known
- DAS28 or Low Disease Activity (switch from originator to a biosimilar) is available
- A new current version Consent Form is completed (including patient initials and signature)

→ If all of the above are available please continue with the registration.

Go to the patient summary page for the patient you want to re-register. On the menu on the left hand side, click 'Switch Cohort'

Patient Status: Training - Current [\[Click here to reveal Patient Identifiable Data\]](#)

[Unsolved Queries regarding this cohort](#)

Choose the appropriate drug from the dropdown list and complete the start date, dose and unit and frequency. Please provide a DAS28 score (or disease indication) at the time of switch in the 'Any other information' box.

Patient Status: Training - Current [\[Click here to reveal Patient Identifiable Data\]](#)

Switch Cohort from Anti-TNF

If the patient has commenced a new therapy, they might need to be switched into a new cohort. Please refer to the criteria for registration as a cohort switch [Here](#)

For the new cohort, a new baseline will be created and the follow-ups will reset as a new registration. The current cohort record will be cut-off at the date of exposure to the new drug; any existing data after the cut-off date will be moved to the new cohort record for this patient. Please ensure that the existing follow ups are fully complete to the best of your knowledge before requesting a cohort switch.

New drug:

Commenced date:

Dose & unit:

Frequency:

Subsequent infusions & batch:

Any other information:

Request Cohort Switch

Cancel

Once you complete the form, a feedback note with the details will appear under the 'Unsolved Queries regarding this cohort' section on the patient summary. The admin team will check the details and raise any necessary queries before switching the cohort and generating the new patient ID.
